

Paul Ross

Web Developer and UI/UX Designer building responsive front-end architectures and full-stack web applications. Skilled in crafting dynamic interfaces with **Vue 3**, **Vuetify**, and **Quasar**, integrating APIs and AI services, and delivering clean, maintainable code across customer-facing and internal tools. A foundation in education and instructional design brings clear communication and the ability to simplify complex concepts.

DEVELOPMENT EXPERIENCE

Web Developer · Teleflex

2021 – Present

Full Time

PatchWork — AI-powered content-update automation

Designed and built a full-stack internal tool that automated a previously fully-manual content-update workflow, saving the team an estimated **~10 hours per week**. Vue/Vuetify front end with a Node/Express + SQLite back end; eliminated manual screenshot capture and work-note posting by integrating Playwright, Bitbucket Server and Remedy REST APIs, plus AI-assisted content generation. Shipped a human-readable diff view, live activity feed, and admin panel for reviewer oversight.

- ▶ Lead UI development for third-party applications, translating Figma mockups into responsive, pixel-perfect web experiences with HTML, CSS, and JavaScript.
- ▶ Maintain and update web applications using CMS platforms, custom APIs, and modern JS frameworks.
- ▶ Design and maintain back-end systems and APIs with C# and ASP.NET to improve functionality and scalability.

Team Lead, Teaching Expert · Mercor AI

2025

Freelance Contract

- ▶ Collaborated with subject-matter experts to build realistic, engaging scenarios for an experimental AI-driven research project.
- ▶ Designed and evaluated instructional prompts, model responses, and example work products; gave actionable feedback to improve clarity and quality.

Digital Interactives Developer · GreatMinds

2023 – 2024

Freelance Contract

- ▶ Engineered an accessibility tool that converts lessons into WCAG-compliant formats, improving content accessibility and usability.
- ▶ Worked within a cross-functional team of educators and IT professionals to integrate educational insight with technical solutions.

TECHNICAL TOOLKIT

HTML CSS JavaScript
Vue.js Vuetify 3 Pinia Vite
Quasar Bootstrap Figma
Supabase REST API Axios
Strapi Claude AI ChatGPT
Generative AI Python SQL
C# / ASP.NET Git GitHub
Bitbucket Vercel Azure
NVDA

CORE EXPERTISE

- AI-Assisted UI/UX Design
- UI / UX & Website Design
- Responsive Design Thinking
- Accessibility (WCAG)
- Creative Problem Solving
- Agile Methodology
- Workflow Automation
- Clear Communication & Docs

EDUCATION

M.S. Educational Psychology

Marist College · Poughkeepsie, NY

B.A. Secondary Education

Iona College · New Rochelle, NY

PROJECTS

Live demos for every project are available at paulrossdev.com.

FULL-STACK SOCIAL APP

Restaurant Rater

A social check-in app to log and share restaurant experiences. Search via Google Places, rate across four dimensions, log orders by course, and share with friends.

- ✓ Real-time social feed with photo cards, likes & comments
- ✓ Multi-dimensional ratings with auto-computed composite scores
- ✓ JWT auth via Supabase with Row Level Security

Vue 3

Vuetify 3

Supabase

Google Places API

Vercel

AI-POWERED ANALYTICS

Health AI Dashboard

A personal health analytics dashboard pairing Apple Health data with Claude AI for trend analysis — visualizing 90 days of activity, sleep, heart rate, and body composition.

- ✓ Claude AI integration for contextual health insights
- ✓ Interactive ApexCharts with a custom dark theme
- ✓ Serverless proxy resolving CORS for browser-based AI calls

Vue 3

Vuetify 3

Pinia

Claude AI

ApexCharts

Vercel

Memento Mori

A Vue.js app inspired by Stoic philosophy, designed to promote daily mindfulness and intentional living.

Accessibility Tool

Evaluates web content and suggests improvements for WCAG compliance, converting HTML tables to flexbox/grid layouts.

LEADERSHIP & TEACHING

Instructor • SEO Scholars

2020 – 2023

- ▶ Tailored inclusive remote curriculum to 30 diverse learners per semester, sustaining a 100% pass rate through customized assessments.
- ▶ Planned and co-delivered advanced instruction using interactive tools like Jamboard and Desmos.

Math Teacher • Rolesville HS.

2020 – 2021

Authored standards-aligned curriculum across remote & in-person tools; supported a 50% IEP population.

Math Teacher • Hyde Leadership.

2018 – 2020

Researched, pitched, and led a semester-long Coding course based on Bootstrap Algebra.

Algebra & Geometry • New Visions.

2016 – 2018

Accelerated Regents scores by 22% in year one; founded a peer mentoring club that cut disruptions 30%.

“ Paul displays the professionalism and conscientiousness of a seasoned veteran. In the CS-through-Algebra course, his humility and patience were on full display... the classroom was full of joy and students taking full responsibility for their own learning. His willingness to take on new challenges has made him even more versatile — a model for students and staff alike.
